

**A 'NEXT GENERATION' INSURANCE PROCESSING SOLUTION
FOR ALL LINES OF P&C BUSINESS**

INSURANCE ORGANIZATIONS, SELF-INSURED ENTITIES AND GENERAL AGENTS are challenged to find an insurance processing solution that delivers proven, rich functionality on a platform designed to meet the service and compliance demands of complex, or high volume insurance business programs.

At Peak Performance, we can help you make the connection between your insurance processing challenges and our proven, cutting edge technology solutions with the introduction of **IS Elite™**.

IS Elite is a 'Next Generation' solution that combines the best features of our proven insurance processing software with web services, using service oriented architecture (SOA). SOA has been identified as the best architecture for implementing a web services technology platform.

The architecture of IS Elite is based on SOA design principles, which enables us to deliver a modular solution that supports seamless, web-based, point-of-service processing, reducing the cost and risk of implementing and managing insurance programs.

KEY FEATURES

- *Web-Based Virtual Policy Administration*
- *Web-Based Claim & Risk Management*
- *Billing, Accounting & Reinsurance*
- *Automated Workflow & Decision Support*
- *Web-Based Reports & Data Management*

IS Elite features Virtual Insurance Administration for 'Customer to Carrier Processing' through automated self-service policy administration including quoting, rating and issuance, billing, payments, and updates.

IS Elite supports efficiency with automated workflow and decision support, diary, notepad, form letter generation and control, and secure, web-based access to insurance data and program information.

Other features include multi-company processing, flexible claim payment options, commission support, 1099's, reconciliation, and web-based reports and data management.

CONNECT WITH THE BENEFITS

- **Enhanced Functionality** – IS Elite is a full-featured, core insurance processing solution that leverages the extended functionality of our best-of-breed modular process support solutions using web services:
 - **PolicyPointe®** – a fully automated, virtual insurance policy processing solution
 - **RiskEnvision 4.0** – a web-based risk and claim management solution
 - **ONdec™** – a flexible, automated decision support and workflow solution
 - **IS Web Data™** – a web-based data access and reporting solution
 - **INTGEN™** – an XML generic interface for importing data from external sources
- **Reduce Costs and Processing Time** – lower your operating costs by consolidating disparate platforms and leveraging internet-based processing.

CONTROL

IS Elite lets you take control by giving you options on architecture and functionality, while providing mechanisms for access security and compliance.

TRACK

IS Elite can support best practices with tracking tools for effectively and profitably managing your insurance programs.

CHOOSE

IS Elite can be implemented as a total package or incrementally, with a traditional software license, or as a hosted application through our ASP services.

ACT

IS Elite is ready to use for all lines of P&C business, including Commercial/Personal Lines, Professional Liability, Med-Mal and Workers Compensation.
